

Suspense and surprise, maps, canons, gold and pirates! This adventure had it all. And I told you everything there was, except for one thing: the real exact location of the treasure island. Because there's still gold hidden on it, and who knows what trouble you would get into if I told you.

Yes, we did find the treasure. But for me, the real treasure was this very story. And ever since I wrote it, people have been reading it and coming up with pirate stories of their own, not unlike this one: with maps, hidden treasures, black spots and Yo-ho-ho and a bottle of rum and mutinies.

Do you have an idea about a pirate story too? Well, what are you waiting for? Write it down! Illustrate it! And then hide it inside a book. Because if stories are the most valuable treasures, books are their treasure chests!
